

2.1P: In Person Check-in 1 – Answer Sheet

Name: Phan Vu – ID: 104222099

1. Briefly describe your prior experience with programming.
 - I'm new to programming and don't have much prior experience with it. Just enough in order to catch up on lessons and everyone I think.

2. Based on what you have seen so far, what do you think will be most challenging about this unit?
 - To be honest, I haven't seen anything challenging yet. But I think I will face the challenge of understanding programming language and paradigm.

3. What can you do to prepare yourself for that challenge (resources you can use, approach to studying etc.)?
 - I don't really know which resources are good or bad. So to be honest, I just prepare myself to concentrate as much as possible on the class, moreover, I will try my best to be more open to everyone especially the lecturer to address my challenge.

4. Is there anything you think the teaching staff should know to best help you this semester?
 - As a student, I believe that clear communication, accessible resources, and regular feedback are essential for my success this semester.
